

Unit 11

Self-Audit and Goal Setting

Please provide *detailed reflective answers* to all questions

Self-Audit	
What are your main strengths in Journalism?	My main strengths in this course would be the writing of articles and the research behind the article. I found the newspaper journalism particularly interesting and received the best feedback for this assignment out of the assignments we completed throughout the year. I also enjoyed the photojournalism assignment, as I enjoyed the photo shoots.
What are the main areas you need to work on?	I need to work on developing on my analysis and my depth in description. Also need to work on my self-evaluation, and depth in evaluation as well, by looking back at the feedback I received last year.
How ambitious are you? What does this mean to you?	I am relatively ambitious in terms of university and wanting to go, and as I know that this is my next step, I am motivated to work harder to achieve this. However, sometimes I struggle with motivation when I don't have a significant goal at the end of it.
How much do you know about applying to University? How confident are you about this process?	I feel fairly confident with the application process and the research, however, feel as if I could use some help from the progressions team and some tutors. But with applying and using UCAS I feel fairly confident.
How much do you know about Apprenticeships? How confident are you about the application process for this?	I don't know too much about apprenticeships, as I have never thought about doing an apprenticeship, so I haven't ever had to look into it. But I feel that if I was to look at them, I would use the gov website and contact employers for further information.
How much do you know about Journalism Work Placements? How confident are you about the application process for these?	Similarly, to the apprenticeships, I haven't really thought about a work placement in the journalism industry, so haven't ever given it any thought or research. However, I know that if I decided to look into this, I could ask teachers or use the internet for this.
Goals	
What are your main work/education goals for the next 12 months?	In the next 12 months, I want to have completed this Journalism course, hopefully having achieved the grades I need – DDM, or DMM. And then going onto University and studying English Literature.

What are your main work/education goals for the next 3 Years?

In the next three years, I'd like to have almost finished university, or start my final (fourth) year. In terms of work, I hope to work part time alongside university, and then once I've completed University to decide what career I want to pursue.
